Clinical Evaluation

NRS : Population Health & Wellness

Student: Caitlyn Cardona

* Clinical Site:

Please Enter Clinical Site Location

Evaluation Guidelines

The following specific evaluation guidelines are used to determine the student's clinical performance and grade. They indicate how well the student has met the program outcomes and are an overall judgment of the level of the student's clinical practice.

Directions:

Midterm

The student will complete a self-evaluation using the Likert scale for each program outcome required for Midterm. The student will also provide at least one specific clinical example in the comment box of how they were able to meet each outcome required for Midterm.

Final

The student will complete a self-evaluation using the Likert scale for each program outcome. The student will also provide at least one specific clinical example in the comment box of how they were able to meet each outcome.

Performance Rating Definitions

- **1: Not Performing** CF/CI/CFC is required to document concerns and plan for strengthening. Not performing indicates a designation of no pass for the specific program outcome.
  - Unable to function, even with guidance, for the performance of activities at a safe level.
  - Clinical performance reflects inability to provide appropriate nursing care.
  - Demonstrates substantive gaps in necessary knowledge for the student's level and unable to integrate knowledge and skills

Evaluation Guidelines

Directions:

Midterm

The student will complete a self-evaluation using the Likert scale for each program outcome required for Midterm. The student will also provide at least one specific clinical example in the comment box of how they were able to meet each outcome required for Midterm.

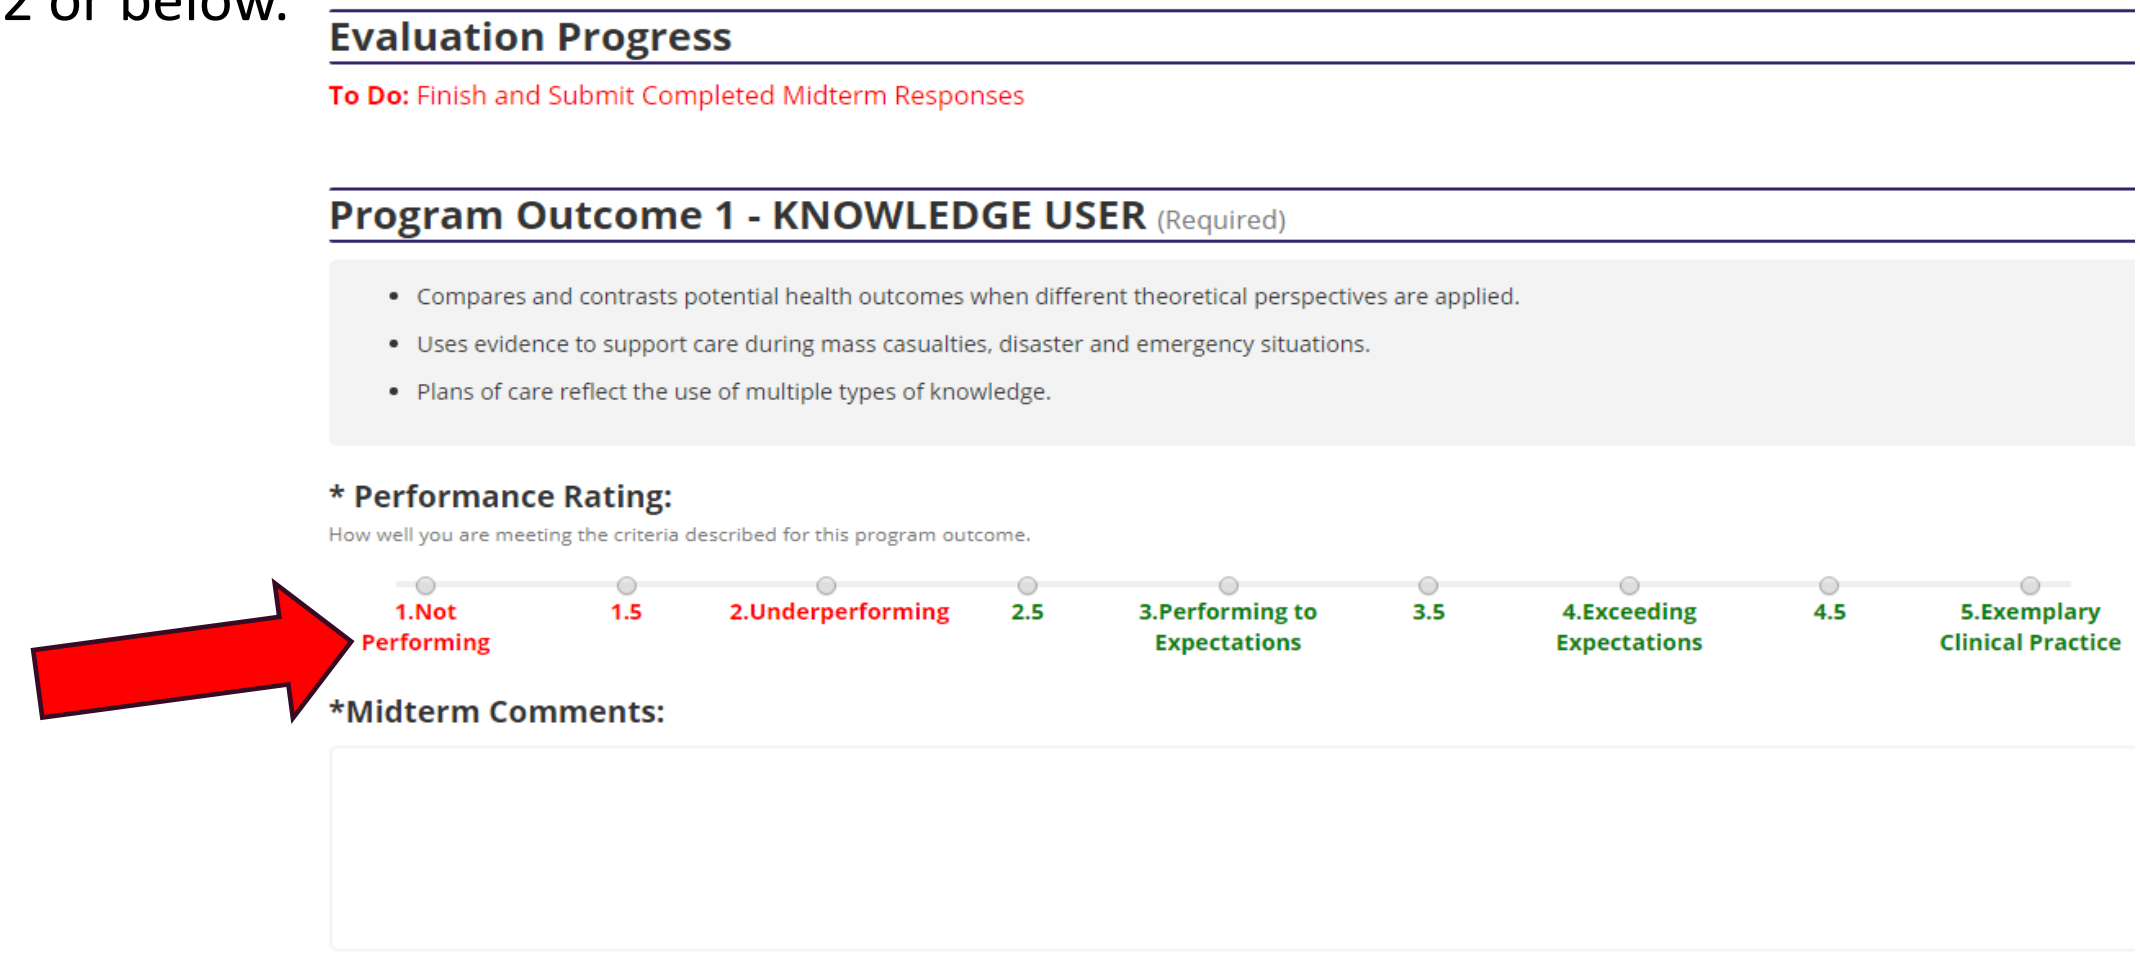

Final

The student will complete a self-evaluation using the Likert scale for each program outcome. The student will also provide at least one specific clinical example in the comment box of how they were able to meet each outcome.

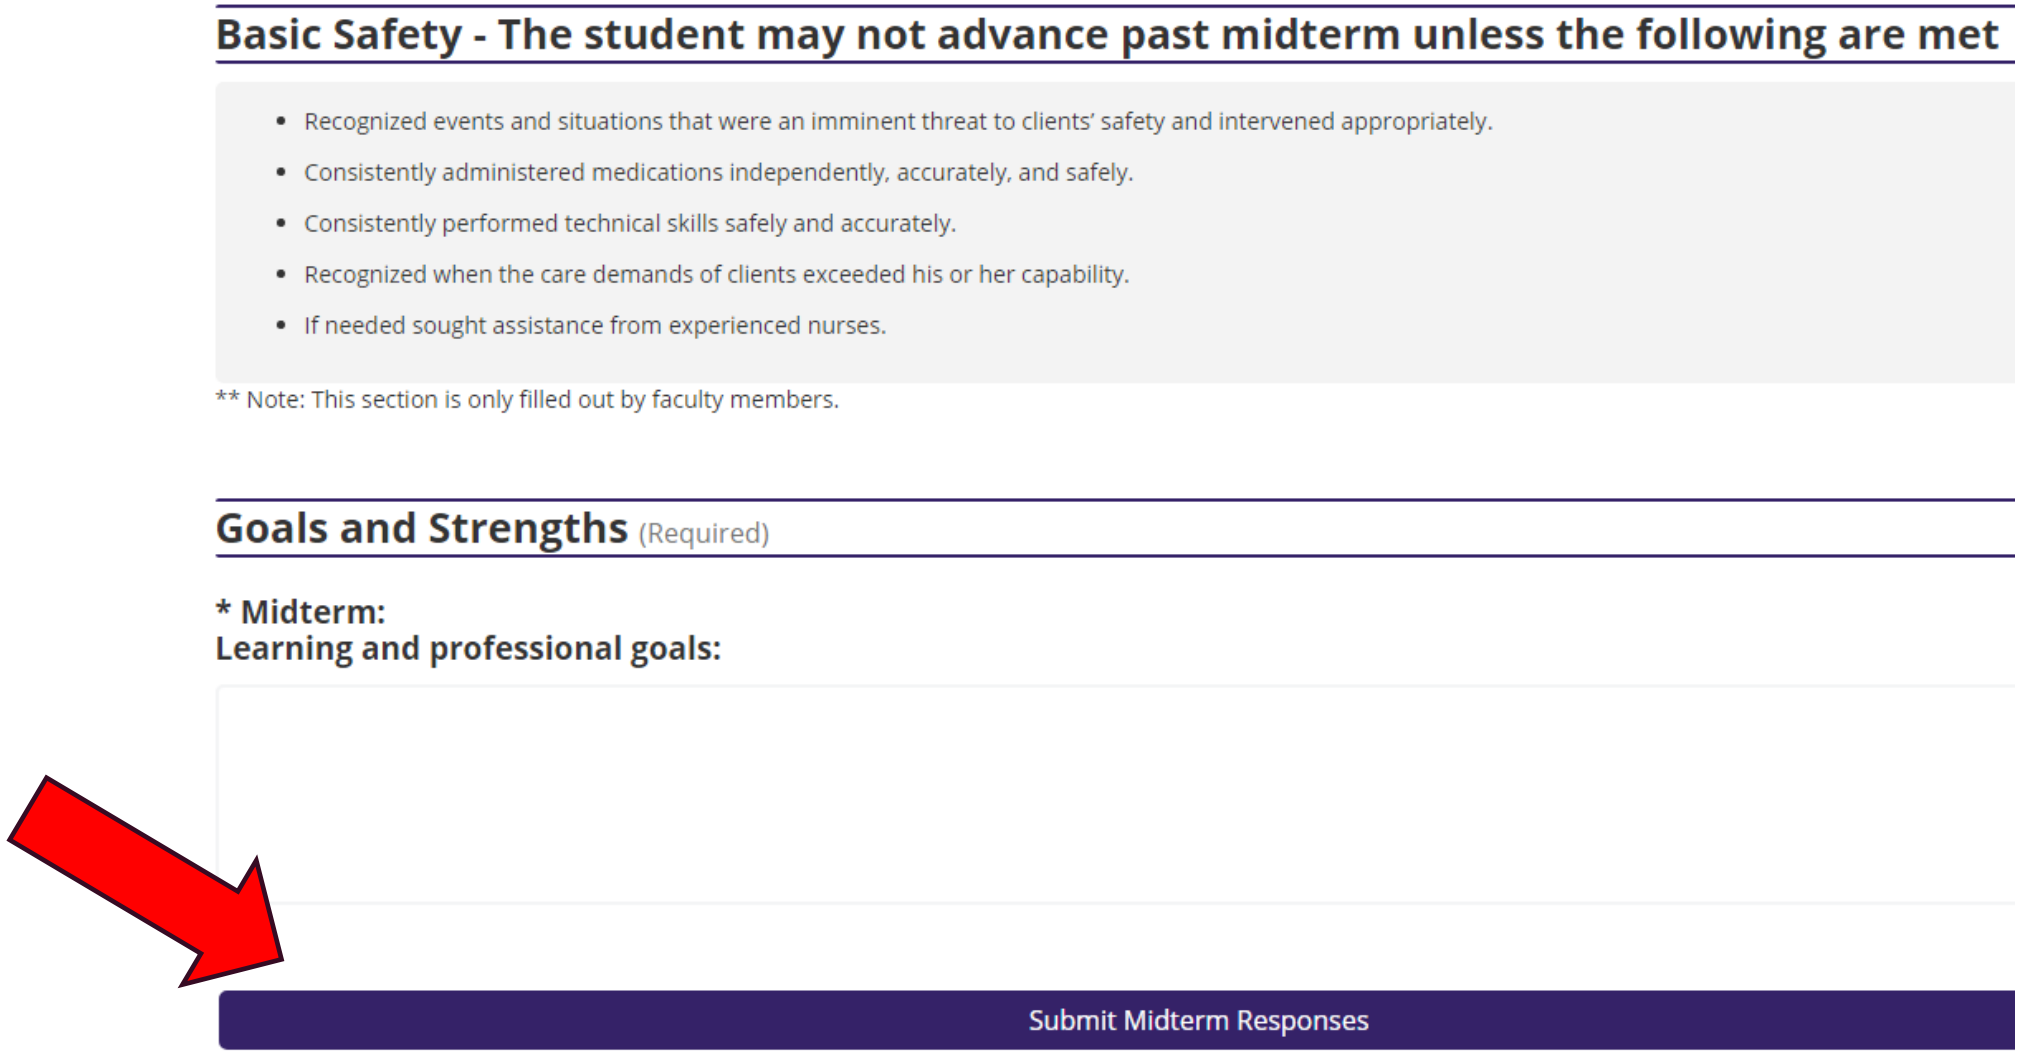

Performance Rating Definitions

- **1: Not Performing** CF/CI/CFC is required to document concerns and plan for strengthening. Not performing indicates a designation of no pass for the specific program outcome.
  - Unable to function, even with guidance, for the performance of activities at a safe level.
  - Clinical performance reflects inability to provide appropriate nursing care.
  - Demonstrates substantive gaps in necessary knowledge for the student's level and unable to integrate knowledge and skills.
  - Requires constant detailed instructions to identify learning opportunities or utilize resources.
- **2: Underperforming** CF/CI/CFC is required to document concerns and plan for strengthening. Underperforming indicates a designation of no pass for the specific program outcome.
  - Usually requires intense guidance for the performance of activities at a safe level.
  - Clinical performance reflects difficulty in the provision of nursing care.
  - Demonstrates gaps in necessary knowledge for the student's level and unreliably integrates knowledge and skills.
  - Requires frequent prompting regarding learning opportunities and resources.
- **3: Performing to Expectations**
  - Generally functions satisfactorily for the student's level with reasonable guidance in the usual clinical situation.
  - Demonstrates average performance of nursing care for the student's level.
  - Demonstrates accurate and appropriate knowledge for the student's level usually integrates appropriate knowledge with skills.
  - Recognizes learning opportunities and resources and utilizes appropriately.
- **4: Exceeding Expectations**
  - Functions with little or no guidance, except in very complex situations.
  - Demonstrates above average performance of nursing care for the student's level.
  - Demonstrates accurate and appropriate knowledge for the student's level and consistently integrates appropriate knowledge with skills.
  - Consistently self-directed in approach to learning and utilization of resources.
- **5: Exemplary Clinical Practice**
  - Consistently functions with little or no guidance, even in very complex situations.
  - Demonstrates outstanding performance of nursing care for the student's level.
  - Demonstrates superior knowledge for the student's level and reliably integrates appropriate knowledge with skills.
  - Proactively takes initiative to seek out learning opportunities and resources.

You will see Guidelines & Directions. Please read what is required. In each Program Outcome, you will rate the student using the Likert Scale. You may provide any comments necessary to support rating for each program outcome, and are required to do so if student is performing at 2 or below.

Be sure to complete all required Program Outcomes at the midterm and at final evaluation. Once ready to be submitted, click the submit button at the bottom of the student's evaluation.

THINGS TO REMEMBER:

- The system will auto-save evaluation as you go, and you may come back to it at any time. The students cannot see your work until you officially submit.
- Once you submit, you cannot make changes to the evaluation.
- When an evaluation is complete, the system creates a .pdf version that you may save or print for your reference.
