Related Work Experience

- **Instructor** – University of Portland School of Nursing, August 2016 to present. Primary responsibilities include teaching in the classroom, clinical, simulation, and laboratory environments for junior and senior level nursing students. Additional responsibilities include academic advising.
- **Didactic Adjunct & Clinical Faculty** – University of Portland School of Nursing, Jan 2016 to August 2016. Teaching and evaluation of learner outcomes in one section of NRS 310: Multicultural Population Health Promotion. Ongoing collaboration with lead faculty to identify learning objectives, implement innovative teaching strategies, evaluation of teaching effectiveness, and achievement of learning outcomes. Overseeing multiple nursing students during their clinical experience, providing clinical praxis seminars, review of clinical procedures, and overview of care of the acutely ill adult in the inpatient setting. Also functioned as liaison between clinical agency and school of nursing.
- **Simulation Adjunct Faculty** - Linfield-Good Samaritan School of Nursing, Jan 2016 to May 2016. Primary responsibilities include the implementation and debriefing of high fidelity simulation learning experiences across all levels of the nursing curriculum. Additional responsibilities include the development and vetting of simulation experiences in collaboration with lead simulation and course faculty.
- **Clinical Adjunct Faculty** - Linfield-Good Samaritan School of Nursing, Aug 2014 to Dec 2015. Overseeing multiple nursing students during their clinical experience. Provide clinical praxis seminars, review of clinical procedures, and overview of care of both the acutely ill adult in the inpatient setting and the chronically ill adult population in the post-acute and community settings.
- **Nurse Care Manager** - Portland VA Medical Center, West Linn Community Based

Outpatient Clinic (CBOC), Aug 2012 to present. All aspects of primary care management including direct patient care, telephone triage, health promotion and chronic disease management, individual and group patient education, panel management, and coordination of care both within and outside agency. The patient population has a high occurrence of multiple co-morbidities, mental illness, and/or complex medical issues.

- **Staff Nurse** - Portland VA Medical Center, 9C, Jun 2011 to Aug 2012 All aspects of medical-surgical patient care including care planning, medication administration, IV therapy, patient teaching, wound care, blood products administration, alcohol withdrawal precautions, pre- and post-op care, assistance with ADLs, and patient advocacy. The patient population is predominantly geriatric and patients have a high occurrence of multiple co- morbidities, mental illness, and/or complex medical issues.
- **Student Nurse Technician** - Portland VA Medical Center, 9C, Mar 2010 to May 2011 Responsible for vital signs, capillary blood glucose testing, assistance with ADLs, and other tasks as delegated by the registered nurse.
