QUALIFICATIONS

Proficient nursing instructor with over twelve years' experience in curriculum development instruction and evaluation of nursing based education for a variety of health care settings. I have a particular passion for working with nurses to improve patient outcome utilizing evidence.

Current experience includes educating nursing staff about adult-based specialty wound in a long term acute care hospital.

WORK

Role description and accomplishments

HISTORY

July 2015-
current

Nursing instructor; Adjunct July to December 2015 then full time January 2016 to current, University of Portland, Portland Oregon:
Instruction of students at agencies providing psychiatric and general medical care. Organizing and instructing nursing student in: Fundamentals of Nursing and Life span development. On campus clinical instruction and evaluation of student skills in the learning resource center.

July 2015 –
