Marijuana or THC products	

*For safety, all other cooking appliances must have: a 3-pronged outlet, a UL marking, and an automatic shut off.

Packing for college can seem daunting, so that's why we've made this list to help. Space is often limited in dorm rooms, so be mindful of what you decide to bring with you. If you didn't use it before college, you probably won't use it here. Most traditional residence halls do have communal kitchens with cooking utensils, dishes, and pans. Vacuums can also usually be borrowed by students.

If you arrive and realize you have forgotten anything, there is a Fred Meyer just 1.5 miles away, and a Target 5 miles away that stock most items you could need.

Our Hall Staff is here to support you in your transition to college life.
Welcome to UP, Pilots!
