Research Help

24/7 Library Chat

<https://library.up.edu/chat>

Make an appointment with a librarian:

<https://library.up.edu/meet>

Email: reference@up.edu

Connect with your librarian subject liaison:

<https://library.up.edu/liaisons>

Digital Lab

(503) 943-7756, lab@up.edu

Multimedia collaborative space with emphasis on supporting student projects and assignments. Workshops on media production throughout the year; instruction for classes also available on request. Digital cameras and recording equipment available to checkout. <http://sites.up.edu/dlab>

Group Study Rooms

Reserve a room for 2-6 people for work and meetings. <https://library.up.edu/rooms>

Information Literacy

Librarians partner with faculty to provide tailored library instruction sessions for courses. Schedule a session (or seek more information) by contacting: reference@up.edu

RefWorks

Online tool for creating bibliographies and managing sources.

Teaching and Learning Collaborative: Support for Great Teaching at University of Portland

Christi Hancock

Associate Professor of History
Recipient of UP's 2019
Teaching Excellence Award

University
of Portland 

Teaching and Learning Collaborative

The TLC site is a network of colleagues and offices on campus who support one another's efforts to be excellent teachers. On the TLC site you will find a variety of tool kits, strategies, and content. Visit <http://up.edu/tl> for an archive of teaching materials from your peers on a wide range of topics including internationalizing curriculum, using peer review in class, Teaching Circles, inclusive practices, and more.

Watch UPBeat and Pilot Announcements for news of peer-led teaching workshops each semester. 2019-2020 topics will include understanding pronouns, shaking off cobwebs, and JOY in STEM teaching.

The TLC will post short videos and articles weekly in UPBeat, which can be viewed in the length of time it takes to enjoy a cup of coffee or kombucha at your desk. Contact TLC through Karen Eifler at eifler@up.edu with your questions about teaching, and ideas that TLC can bring to life.

Technology Resources for Teaching

LinkedIn Learning:

All UP faculty and staff have unlimited access to the excellent training videos at <https://www.linkedin.com/learning/>. Learn about photography, video, web design, Word, Excel, Powerpoint, and hundreds of other topics. To access, visit go.up.edu and log on with your UP username and password.

Virtual Service Center:

Tech support anytime, anywhere. Request a service technician, download software, search the knowledge base, reverse training, and more! To access, visit <http://go.up.edu> and log on with your UP username and password.

Tech Talk Blog:

Visit <http://sites.up.edu/techtalk> for conversations about tech on the UP campus. Find out about new services, tech tools, resources, and what other instructors are utilizing tech for in their courses.

On the Bluff Studios:

Visit <http://sites.up.edu/bluffstudios> to find out how to access a student-driven media production studio for videos, audio, graphic design, and other instructional media in Tyson Hall. Contact bluffstudios@up.edu

ATSI Presents:

Visit <http://sites.up.edu/atsipresents> to view upcoming professional development events, and get notified of planned service outages for educational technology tools like Moodle.

UP Crossroads:

conversations that connect teaching and technology led by fellow professors. Visit the ATSI web page or newsletter to see the dates for the conversations.

Who's Who

Help Desk:

For help with personal email, network connections, desktop computers, software, and mobile devices.

Location: Franz Hall 112

Phone: Ext. 7000

Email: help@up.edu
